

Notice of Transition and Study Commencement

Preliminary Design, Detail Design, and Class Environmental Assessment Study Intersection Improvements at Highway 6 and Eighth Line/Wellington Road 22, and Highway 6 and Second Line, Wellington County (GWP 3112-18-00 and GWP 3113-18-00)

THE PROJECT

The Ontario Ministry of Transportation (MTO) has retained Egis (formerly McIntosh Perry) to undertake the Preliminary Design, Detail Design and Class Environmental Assessment (Class EA) Study for the Highway 6 intersection improvements within the Township of Guelph/Eramosa and Township of Centre Wellington, Wellington County.

THE PROCESS

This study was initiated as a Group 'B' project under the *Class Environmental Assessment (Class EA) for Provincial Transportation Facilities (2000)* but will be moving forward as a Group 'B' project under the *Class Environmental Assessment (Class EA) for Provincial Transportation Facilities and Municipal Expressways (2024)*.

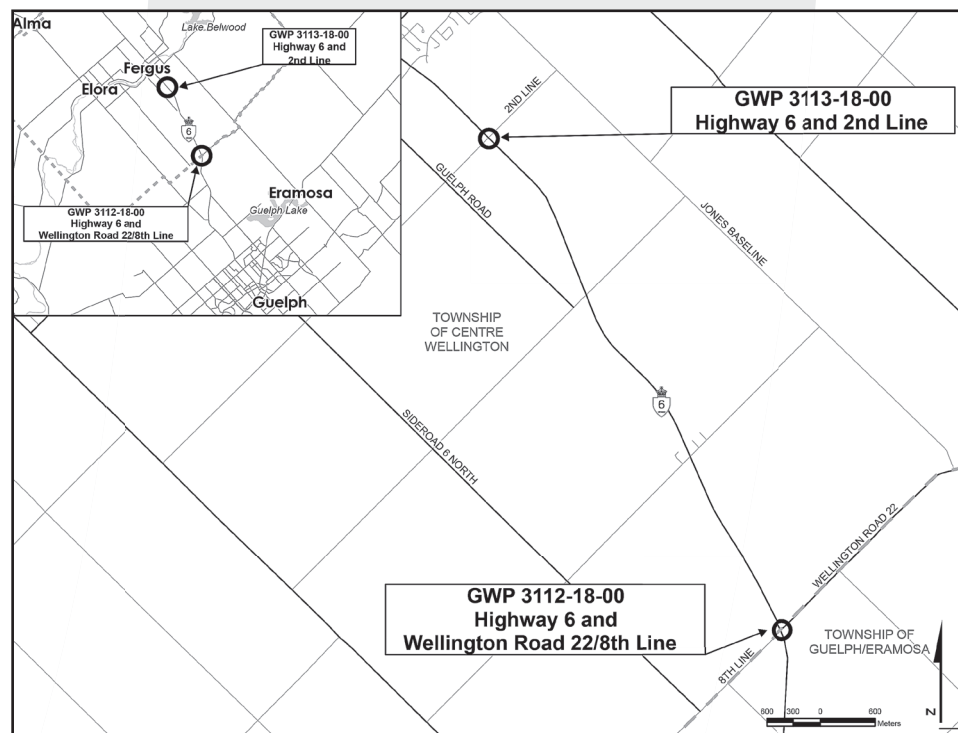

This notice is being issued to inform of study commencement, and to confirm that this project has transitioned to following the 2024 Class EA. Transitioning to the new Class EA process will improve the planning process of projects beyond the preliminary design stage, bringing MTO into alignment with best practices observed in other Class EA frameworks. Transitioning from the requirements of the 2000 Class EA to the 2024 Class EA reflects a commitment to optimizing the assessment process by removing redundancies and expediting project planning to facilitate a more streamlined implementation process. Commitments made during the preliminary design phase will be addressed as the project progresses through the design process. Design and construction information will continue to be published on the project website and opportunities for public consultation will be ongoing through preliminary design.

Please note that the transition to the 2024 Class EA is not anticipated to negatively impact project schedule or construction timelines.

Information on the project, including the process under the 2024 Class EA can be found at www.Highway6andwellingtonroadsecondline.com.

At the end of the study, the project team will prepare a *Transportation Environmental Study Report (TESR)* that describes how the requirements of the Class EA were met; how the project achieves the greatest overall transportation benefit while minimizing overall negative net environmental impacts; other key decisions; consultation with individuals, organizations, and Indigenous communities; and commitments for consultation and environmental protection.

THIS NOTICE ISSUED: OCTOBER 30TH, 2024

The project team will issue a Notice of Completion at which point there will be a 30-day comment period allowing for an opportunity to provide comments on the TESR. The project team will include comments received, responses to the comments and any supporting materials in a record of consultation.

COMMENTS

If you have any comments or questions about this notice, or have questions about the study, we respectfully request you to contact one of the following Project Team members:

Mr. Steven Pilgrim, P.Eng.
Consultant Project Manager
